WELD

WELD BRAND | High quality products for decorative wall panels

HQ

High
quality

Unique
formula

High
performance

Easy
of use

PERFECT CHOICE FOR PROFESSIONALS

WELDFIX

Weldfix Ultra is modern and easy in use mounting adhesive, especially useful for decorative panels. It can be use to most of available substrates: lime plaster, gypsum plaster, wood, MDF, HDF cork plywood, chipboard, ceramics, plaster, plasterboard, steel, carpentry furniture, built-in cupboards, moldings, profiles, hangers, etc. Do not use styrofoam PE, PP.

WELDMASA

WELDMASA is ready-to-use gypsum putty, suitable for a wide range of interior applications. It's perfect for non-structural filling, leveling, patching and jobs on gypsum boards such as decorative panels. Thanks to WELDMASA the surface is much more smoother. Advantages: high quality, unique formula, easy in use, fast drying time, increase smoothness.

WELDPRIMER LIGHT & WELDPRIMER **STRONG**

WELDPRIMER LIGHT & WELDPRIMER STRONG Concentrate are the newest formulas that reinforce primed surfaces, reduce ground's absorbability, standardize primed surface. It is a preparatory coating put on materials before painting. Priming ensures better adhesion of paint to the surface, increases paint durability, and provides additional protection for the material being painted. We recommend to prime as the first layer under painting and install panels made of gypsum composite. Advantages: high quality, easy in use, fast drying time and high efficiency.
